

RETRACTABLE BELT STANCHIONS

The retractable belt stanchions are built with a 4-way connectivity suitable wherever queue control is required. The retractable belt can be extended out up to 2 metres to cordon off area. Stable base is weighted with non-slip surface to help keep the stanchion in place as well as prevent scratches on floors.

Features:

- Easy to set up, move or store away
- 4-way adapter atop of post to make creating a queue & sectioning off areas easy in different directions.
- Stainless steel stanchion is 1 metre high & 60mm in diameter
- Weighted non-slip rubber base with stainless steel cover 310mm in diameter
- Belt length 2 metres with width of 48mm
- Belt colour available in Black, Red and Blue
- Fully assembled on request
